

## Selene 59 Ocean Clipper [4073]

### Description

The new Selene 59 Ocean Clipper is the very latest iteration of Howard Chen's talent... A Selene repeat customer was looking for a yacht as beautiful and safe as any Selene, but faster in order to explore the Mediterranean sea, without losing the ocean-going capability of the Selene Ocean Trawlers. Howard Chen's design team took up the gauntlet, working with the renowned Dutch designer Guido de Groot, and the new Ocean Clipper semi-displacement line was born!

These top designers capitalised on builder Jet Tern Marine's quality construction and reputation for experience and innovation in the displacement...
