Absolute 48 Coupé – Ready for NZ summer, Make an offer today!

A New Horizon in Luxury Yachting

Sporty, Sustainable, and Versatile

Introduction

The Absolute 48 Coupé, launched as the first model in Absolute Yachts' innovative Coupé range, redefines luxury yachting with its combination of sporty design, environmental consciousness, and unparalleled comfort. With a bold approach to versatility and sustainability, Absolute Yachts has created a vessel that stands out in both performance and design.

Revolutionary Design

The Coupé range represents a new chapter for Absolute Yachts' Italian shipyard, incorporating revolutionary ideas that have made the company's previous models famous. The Absolute 48 Coupé features intriguing new elements, including solar panels, panoramic windows, and a terraced cockpit. These updates enable maximum versatility and usability, catering to modern yacht enthusiasts who seek innovation and comfort.

Sporty Lines with Purpose

While the Absolute 48 Coupé boasts sporty lines, its design remains deeply rooted in Absolute Yachts' commitment to sustainability and environmental care. The roof is equipped with solar panels, including a transparent panel that allows natural light to enter the interior without overheating the space. This innovative feature provides a convenient, clean energy source, making it ideal for anchoring in scenic locations while minimising environmental impact.

Commitment to Sustainability

Absolute Yachts places a strong emphasis on reducing environmental impact, both during construction and while on board. The solar panels on the Absolute 48 Coupé are a testament to this commitment, offering renewable energy and reflecting the shipyard's principles of sustainability. The design aligns with the growing demand for eco-conscious solutions in the luxury yacht industry.

Unparalleled Views and Comfort

The salon of the Absolute 48 Coupé is a marvel of design, featuring large side windows that envelop the entire deck and a panoramic windshield, providing uninterrupted visibility. From inside, passengers enjoy a stunning 360-degree view of their surroundings, making every journey a breathtaking experience. The terraced cockpit and configurable décor further enhance usability and adaptability, ensuring comfort for every occasion.
