

Absolute Navetta 73

ABSOLUTE FLAGSHIP NAVETTA 73

If there is a yacht that best personifies the blending of style and technology, it's the new Navetta 73 from Absolute. Even before stepping aboard, she's already attracting attention by being the first boat to be powered by all-new Volvo Penta IPS 1350s at 1000-hp each.

Step aboard and the jaw-dropping commences. This distance cruiser is clearly built to take on ocean travel and do it with style, comfort, and technology. She truly seems out of character tied to a dock. When underway, she belies the slow trawler mentality with a reported top speed of 27 knots. The Absolute 73 Navetta was a huge success at the Cannes Boat Show 2017 winning the Most Innovative Boat Award 2017! With a length of almost 22m and a width of 5.60m, it offers

unbelievable spaciousness never seen before in a boat this size. It has 4 guest cabins with private bathrooms, while the local crew positioned in the stern can accommodate up to 3 people. The quality is superb and the price is the best!
