

Hylas N57 New

The "Boat of the Year" Hylas H57 brings a fresh look and game-changing lifestyle enhancements that redefine life on board. What hasn't changed is the build quality and capability you would expect from a Hylas. Uncluttered decks for ease of movement. An integrated hardtop that enhances the yacht's profile also provides all-weather protection and an opportunity for a full helm enclosure. The hardtop doubles as a perfect platform for solar power. The solent rig and self-tacking jib offer fingertip furling and minimal line handling. A fixed spray shield that takes the edge off upwind legs and is sturdy enough to deflect any greenwater coming aboard. The integrated deck wings and automated swim platform more than double the social space aft of the already expansive cockpit. After sailing on this yacht, you will redefine what socialising, grilling out, and sundowners can look like. Below decks, the bright and voluminous three-cabin interior is warm and welcoming. Natural light abounds, and the layout is configured for luxurious comfort and an enjoyable living experience underway, while providing a true sense of home when settled at your destination. No horizon is too

distant for this award-winning performance cruiser. The master stateroom is aft, offering the most comfort underway, in addition to the space and versatility that allow for an ensuite bath with a separate shower stall, plenty of storage space, settees, work stations, and AV systems. The galley is large enough to accommodate every appliance, and the forward guest quarters would be the envy of any host wanting to bring comfort and luxury to friends and family. The Hylas H57 is a perfect blend of strength, performance, and luxury, designed for both short-handed sailing and long voyages. With a beautiful painted white hull, teak decks and light oak interior, this gorgeous yacht is ready to take you anywhere. To ensure comfort and independence at sea, this H57 is equipped with a Generator, Air Conditioning, Water-maker, Full Raymarine Electronics, including Radar and two Autopilots. There are 3 cabins, including an Aft Master Stateroom with a centerline queen berth, plenty of natural light and storage and a private head with secondary access to the engine compartment. The primary access to the engine compartment is through the spacious Navigation station, which is in proximity to the companionway. The VIP cabin is forward and also features a centerline berth, plenty of storage, natural light, and en-suite access to the forward head. Under the forward bunk is the Water-Maker with remotely plumbed filtration for easy maintenance. Additionally, there is a second guest cabin forward with a single berth that also functions as a utility cabin with a work bench and a combined Washer/Dryer.

General

Year:	2025
Price:	\$POA
Additional Charges:	None
Boat Type:	Sail
Hull Type:	Cruising
Location:	Offshore
