Lagoon 50 2020 Owner's Version

Lagoon 50 Owner's Version, never chartered, immaculately maintained — extended layout with 4 cabins (Owner + 3), premium off-grid specification including Integral E-Power System & Zero Jet Tender.

She is a unique and very well-appointed vessel. The really nice saloon layout flows easily to the aft cockpit and deck.

Seadeck (in grey) gives a really nice feel to outdoor surfaces. Power systems are all exceeding expectations. The standard engines each have an integral charging system fitted. This, combined with 4 KW of Solar and Integral power units, negates the need for a generator. Sails are all of good quality. Rigging is recently replaced, and servicing is to an exceptionally high level. Strongly recommended for extended cruising!
