

Absolute Navetta 48 - The Compact Luxury Yacht

The Absolute Navetta 48 is a remarkable yacht that captures the essence of the Navetta line. Let me share some details about this luxurious vessel:

1. Space and Light:

- The Navetta 48 is all about space and light. These two elements merge into a single concept, making them the real protagonists aboard this yacht.
- The boat is designed for long journeys and offers ample storage spaces, including large closets and an aft crew cabin with a private head accessible from the stern platform.
- The outdoor space is unparalleled compared to similar boats in this segment. The flybridge has no steps from front to aft, and the centrally placed dashboard allows for a sun lounger accommodating up to five people.

- A spacious living area with a U-shaped sofa, teak dining table, and a galley equipped with a refrigerator, ice maker, barbecue, and sink makes the terrace the perfect spot to enjoy the beautiful hours of the day.
- [The bow is easily accessible via walkways, protected by the cover of the flybridge itself, and offers a comfortable, modular relaxation area¹.](#)

2. Comfort and Elegance:

- The main deck is versatile and elegant. Refined colour combinations, high-quality furniture, and precious materials give the entire space a touch of class.
- The galley is roomy and fully equipped, easily connected to the cockpit for outdoor lunches and dinners.
- The salon features two elegant sofas and a starboard helm station, with exceptional visibility due to a windshield without central pillars.
- The lower deck has three cabins, two heads, and four sliding doors that maximise livability. All cabins have ample windows for panoramic views.
- The master cabin, raised and placed transversely to the bow, offers a remarkable surface for a yacht of this size. It includes a large double bed, high ceilings, a large closet, and an en-suite head with a separate full shower.
- The half-beam VIP cabin mirrors the main suite, while the third guest double cabin has separate berths. [An additional cabin placed aft can accommodate an extra guest or crew¹.](#)

3. Technical Specifications:

- [Length Overall: 14.93 meters \(48.97 feet\)¹.](#)

World-renowned quality, quality, quality!! All this in 48'!! **ABSOLUTE.**
