## Selene 56 Ocean Explorer New Model

## Selene 52 Ocean Explorer

Inspired by feedback from the Selene owner community and blue water adventurers like the YouTube duo **The 71 Per cent**, the new Selene 52 Ocean Explorer is the perfect marriage of capability and style.

As part of the Ocean Explorer series, this 52-foot vessel features a more open layout, larger windows and sleeker exterior lines than a comparable Selene Classic Explorer. However, beyond the contemporary look, the Ocean Explorer maintains the performance and safety trademarks of every Selene. This includes a powerful raised pilothouse, a Portuguese bridge, and a seaworthy Deep Hull designed for long-range yachting.

Influenced by real-world cruising experiences and recent technological advancements, the **Selene 52 Ocean Explorer** comes standard with Selene's most popular options, including lithium batteries, solar panels, power by Victron, Furuno electronics, CMC stabilisers, and a single powerful John Deere 6068 engine backed up by a get-home drive.

Built around a comfortable salon-and-galley-down configuration, the 52 features a pair of luxury staterooms, two heads, and a surprising amount of outdoor space. Whether you want to cross oceans, cruise the coast, or live aboard in modern luxury, the **Selene Ocean Explorer 52** means passage-making without compromise.
